

Clear Browser Cache

This article will assist you in clearing your browser cache. Note that each company may update the user interface but the steps should still be valid.

Note that specific browsers are third party applications. As a result, Asset Panda is not responsible for changes to these applications. See the specific help links contained within each browser section below for the most up-to-date information.

Using a keyboard shortcut

If you are using Microsoft Edge, Google Chrome, or Mozilla Firefox as your browser, you can quickly clear your cache by using a keyboard shortcut. While in your browser, select the following keys simultaneously:

- **Ctrl + Shift + Delete** (on Windows)
- **Cmd + Shift + DEL** (on Mac)

From within the browser

You can also clear your cache from within your browser.

Google Chrome

1. Select **Settings**.
2. Select **Privacy and security**, and then select **Clear browsing data**.
3. Select **Cookies and other site and plug-in data** and **Cached images and files**.
4. Select **Clear browsing data**.

See [Google Account Help](#) for more information.

Mozilla Firefox

1. Select **Options**, and then select **Privacy**.
2. Select **Clear your recent history**, and then select **Cookies and Cache**.
3. Click **Clear now**.

See [Mozilla Support](#) for more information.

Microsoft Edge

1. Select the hub icon.
2. Select **History**, and then select **Clear all history**.
3. Select **Cookies and saved website data** and **Cached data and files**.
4. Select **Clear**.
